REV. & MRS. KEN IGBINEDION
Proprietor/Principal & Proprietress (TCC)
NCE, B.A., M.A. Educational Administration
& Planning

Welcome to TOPCLASS College (TCC)

TCC is a unique, modern and innovative college, and this is clearly visible in our philosophy of education, methodology, curriculum and most importantly, staff competence.

We function with the clear-cut objective of **developing the total child**. This means that we offer your ward(s) the highest possible quality of education with a view to:

1. Enlightening their understanding.
2. Correcting their character.
3. Forming the right manners and habits of youth and
4. Fitting them for usefulness in their future stations.

In adapting the Principle Approach to education we seek to correct the wrong notions that:

1. Education is dead and there is nothing anyone can do about it, and
2. Obtaining a certificate is all that matters (to the preclusion of process and wholistic development).

Our students receive old and almost forgotten ethical values, the tradition of reading, research and reasoning learning of cultures, moral rectitude, a biblical worldview and the fear of God, while mastering the sophistication of 21st century living. With all these offers, parents do not have to send their ward[s] abroad to get top-class education.

TOPCLASS COLLEGE: Developing the Total Child

TCC offer solutions because we are scientifically and spiritually broad based. TCC also runs exquisite boarding system where a lot of reformation take place. TCC has specially devised programs designed to guide the students in the way they should go.

You need to put your ward[s] in a school where you can be assured that ALL IS WELL [by God's grace]: a place where your child will graduate responsibly without the influence of cultism or prostitution, prevalent round us today: a place where your ward[s] can write and PASS his/her final exams with flying colours in with just one attempt.

MISSION STATEMENT

Utilizing Christ's values to interact with relevant knowledge, thereby changing lives and delivering result

AIMS

1. Transference of knowledge and understanding through teaching, learning and research.
2. Equipping of students with the skills to meet future challenges and to solve problems.
3. Crafting a vibrant, learning community to foster opportunities for a life-long learning
4. Producing students who are mentally and morally viable and stable
5. Developing students spiritually to effectively replicate Christ's values in their homes and in the larger society.
